

# The Sea Ranch Kids Club

## Summer Session

**The Sea Ranch Lodge is excited to announce our 2nd annual Kids Club Summer Sessions! This summer, we are inviting kids ages 3-12 to have fun and explore the North Coast. The Kids Club is offering 7 engaging and educational one-week sessions.**

**Art  
06.12-  
06.16**

A time for creative exploration through nature, expression, and interaction with well known artists from the community. Activities include beading, mosaics, poetry, and much more!

**Architecture  
06.19-  
06.23**

This session will be spent engaging, exploring, and contemplating the unique designs of nature and the surrounding community, as well as implementing creative thought processes to solve collaborative architecture activities. Activities include an architecture tour, making fairy houses, driftwood structures, and much more!

**Land**  
**06.26-**  
**06.30**

A time to connect with all aspects of our natural and imaginative world. Kids will have the opportunity to visit animals at the Ranch, identify local flora and fauna, as well as consider Earth's place in the Universe.

**Play**  
**07.10-**  
**07.14**

This week, we will tap into a child's most natural state of being. This week will give kids the opportunity to build relationships and explore social connections through play. Whether it be swimming, golf, tag, or a silly counselor fashion show, kids are bound to have a blast burning off all of that energy.

**Ocean**  
**07.17-**  
**07.21**

Is there a more perfect place to hold Ocean Week than the North Coast of California? Kids will spend Ocean Week exploring the beach, collecting, crafting, and appreciating the local watershed. Activities include tide pooling, bird watching, making sea salt, and much more!

**Science**  
**07.24-**  
**07.28**

In this session, we will build a curiosity in understanding different phenomena that surround us. Science Week is meant to engage, explore, and excite the senses. Each day will focus on a different content area: chemistry, physics, biology, computer science, and earth science. Activities include: dissecting, slime making, coding, homemade ice cream and much more!

## **Theater 07.31- 08.04**

Theater Week will be a week of creative playmaking in nature. Using theater games, movement exercises, character work, singing and puppetry, the children will tap into their own imagination and self-expression, building skills and confidence as they bring their ideas to life. By exploring the natural elements of wind, waves, sand and trees, they will collaborate to create a site-specific pageant play around a classic story structure that invites participation from their friends and family.

**The Kids Club runs Monday through Friday, 9am-2pm. Tuition is \$525/week. Attendees of the summer camp must be potty trained.**

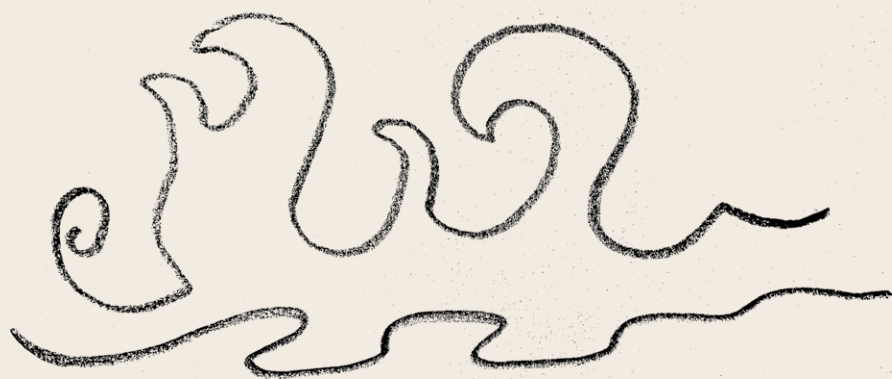

**For more information and to register, please contact [thekidsclub@these ranchlodge.com](mailto:thekidsclub@these ranchlodge.com).**

**We are also accepting donations from community members who would like to sponsor low-income North Coast children to attend the camp. For more information and to donate, please contact [thekidsclub@these ranchlodge.com](mailto:thekidsclub@these ranchlodge.com).**

## **Lodging**

**For out-of-town families who would like to attend The Sea Ranch Kids Club, we recommend booking accommodations through Sea Ranch Living. The Lodge's private vacation homes are the perfect setting for a summer getaway. Families who book through Sea Ranch Living will be offered a discounted Kids Club tuition rate of \$450/week.**
